'Palm Springs' becomes an inescapable destination for Milioti

BY JAY BOBBIN

If Palm Springs seems a great place to escape to, a comedy named for it makes it a place two people can't escape from.

The premise of "Groundhog Day," "Russian Doll" and other time-repeating tales gets a fresh workout in "Palm Springs," a recent Sundance Film Festival entry that makes its Hulu streaming debut Friday, July 10 – the same day it also becomes available to theaters. "Brooklyn Nine-Nine's" Andy Samberg (also a producer of the film) and "How I Met Your Mother" alum Cristin Milioti star as wedding attendees who can't get away from the event, since the day of the nuptials keeps rebooting itself for them.

"I'd never quite read anything like it," the friendly Milioti says of the movie, written by Andy Siara and directed by Max Barbakow. "I thought it was so strange and funny and weird and moving. It deals with

OUTLET

some really heavy things in its own unique, irreverent way, and that's the kind of stuff I'm drawn to. I really

loved it."

Though "Palm Springs" has a cast that also boasts
Oscar winner J.K. Simmons, Peter Gallagher, Meredith
Hagner and Camila Mendes ("Riverdale"), Samberg
is Milioti's principal acting partner. In the script,
his character Nyles makes the point that "nothing
matters" since almost everything is erased when the
same day begins again, but working with Samberg
mattered very much to Milioti.

"I was so fortunate to have a partner like him in this," reflects Milioti. "He is so generous and lovely, and we laughed our faces off. By the end of the shoot, I was wondering if we could do our version of two actors who just keep working together: 'Is there another movie we could be in?' I just adore him."

A 2012 Tony Award nominee for the musical "Once," Milioti attended the premiere of "Palm Springs" at what turned out to be one of the entertainment industry's last mass gatherings before the coronavirus pandemic hit. She recalls last January's Sundance event as "a blast. We saw the movie in a theater in Park City with about 400 people, and it was so incredible to experience it with an audience. It was so special, especially in the face of now not being able to convene in a giant group like that."

As with so many other shows, work on Milioti's next series was put on hold by the pandemic. "We have the last 30 percent of the shoot to finish" for HBO Max's "Made for Love," she reports, "but what's comforting is that everybody is in the same boat. It's not, like, just one production ... but I'm very much looking forward to getting back to that show and finishing it."

Lawrence and Pratt find romance in the stars as intergalactic 'Passengers'

BY JAY BOBBIN

Movies set aboard big spaceships for long journeys, such as "2001: A Space Odyssey" and "Silent Running," can make you wonder how the folks on board spend their time. Yes, it's a lot of space, but it is still confined space.

The 2016 fantasy-drama "Passengers" – which FX shows Monday and Tuesday, July 6 and 7 – addresses that issue, with Jennifer Lawrence and Chris Pratt as the major characters awakened from a deep slumber after an asteroid hits their vessel that's destined for a colonized planet.

Actually, Pratt is the one revived by the collision; he's an engineer alone in being conscious, and he decides he needs company, so he wakes up the journalist played by Lawrence. More than 5,000 other passengers remain dozing, so these two pretty much have the run of the place, for better and for worse.

Their trek is supposed to span 120 years, and since they can't go back to their previous state

of sleep, they probably won't live to tell others about it. They bond – closely – over their shared situation, with an android played by Michael Sheen on hand for some comic relief. However, he also knows some things that make for a tense race to the finish line.

Even more emotionally than visually, though the visuals are stunning at times, "Passengers" succeeds in merging the basics of sci-fi with the roots of a romance. And Lawrence and Pratt work well together, which is a good thing, since this movie would be doomed instantly were that not the case.

While they're not the only actors on hand here (Laurence Fishburne and Andy Garcia also turn up), they certainly are the focus. They have a tightly interlocked arc to go through, demanding lightness as well as tougher stuff, and they make that trip together quite successfully.

Also, the film gives director Morten Tyldum

the opportunity to try something that seems vastly different from the picture he still may be best-known for, "The Imitation Game." At the same time, this still is a relationship story principally, so he's on familiar territory there ... just with a lot more technology to handle, and clearly with a more sizable budget that reportedly netted Lawrence and Pratt very big paydays.

If you debate booking passage for "Passengers," thanks to the intriguing premise and the effective acting, the advice is simple: Do it.

Chris Pratt's Top 10 Movies

BY JAY BOBBIN

"Passengers" (2016): Pratt and Jennifer Lawrence make an involving duo as (just about) the only two humans awake on a space station that's making a very long voyage.

"The Magnificent Seven" (2016):

Though this Western remake doesn't displace the classic original, it's fun to watch Pratt hold his own against the likes of Denzel Washington as the village-saving gunslingers.

"Jurassic World" (2015): The fun spirit Pratt brings to his role as a "raptor whisperer" brings fresh energy to the franchise.

"Guardians of the Galaxy" (2014): A star was born with Pratt's hugely

likable portrayal of Peter Quill, the leader of an offbeat band of Marvel superheroes.

"Her" (2013): Though the picture really belongs to Joaquin Phoenix and the voice of Scarlett Johansson, Pratt offers reliable supporting work.

"The Five-Year Engagement"

(2012): Again cast as the best pal, Pratt solidly supports top-billed stars Jason Segal and Emily Blunt.

"Moneyball" (2011): Pratt gets to show off his athleticism as one of the Oakland Athletics players assessed for success by the team's general manager and a consultant (Brad Pitt, Jonah Hill).

"Bride Wars" (2009): Pratt was still trading on his goofy-funny television image ("Everwood;" "The O.C.") in playing the fiance of Anne Hathaway's character.

"Wanted" (2008): Pratt's future in action fare was foreshadowed by his part opposite Angelina Jolie and James McAvoy in this furiously paced espionage tale.

"Strangers With Candy" (2005):

While it isn't a huge role for him, Pratt makes his mark – in a script co-written by star Amy Sedaris and Stephen Colbert – as a suitor of a middle-aged ex-con (Sedaris) who tries to resume her high-school life.

Getting 'Tough as Nails' - Phil Keoghan hosts new competition on CBS

BY GEORGE DICKI

When Phil Keoghan created "Tough as Nails," he didn't foresee it being even more apt by the time it aired.

A producer as well as the host of "The Amazing Race," he also fills both roles on his new CBS competition series that begins Wednesday, July 8. The contestants are workers whose regular occupations – from a deputy sheriff and a firefighter to a welder and a farmer – help keep America running and qualify them for the show's challenges, with physical and mental strength among the traits needed for tasks they perform at various job sites.

With his wife Louise a fellow executive producer of "Tough as Nails," the friendly Keoghan notes "the timing of the nature of the show" is quite appropriate. "We didn't know when we were shooting the series, which is about essential workers, just how pertinent and how relevant it was going to be in terms of what's in the zeitgeist now. We're honoring these very people, and as someone said to me, never have we been so appreciative of people who make \$15 an hour.

"I don't know if any of us will look at somebody stocking shelves in a grocery store the same way again," adds

"Tough as Nails" premieres Wednesday on CBS

Keoghan. "We understand the value of everybody who contributes to society and the world that we had taken for granted."

"The Amazing Race" is expected to return to CBS later this year with its already taped 32nd season. Keoghan is satisfied to have "Tough as Nails" on first, recognizing – and, in fact, hoping for – the added significance its theme could have in this time of social distancing and face coverings.

In a sense, the show is something of an immediate throwback to an age that may not come back again, at least not fully. "We don't know what world we're inheriting after all of this, or how it's going to work," the clearly well-traveled Keoghan reasons. "There will definitely be changes and as we always have done, we'll just adapt.

"Are we going to shake hands again? I don't know. I wonder if that common courtesy will become more of a Japanese type of gesture, where it's doing to be more of a nod ... or maybe it will be a fist bump or elbow bump. And how will it be in restaurants, or on airplanes?"

HBO Max is "Expecting Amy" Schumer's pregnancy documentary

BY JAY BOBBIN

Many people give birth.

Most don't have a series made

But then, most people aren't Amy Schumer.

The comedian-actress and husband Chris Fischer welcomed son Gene David in May 2019. Their path to parenthood - which turned out to be quite challenging - is traced in "Expecting Amy," an unscripted three-part HBO Max series she produced for the nascent streaming service, which debuts it Thursday, July 9. The documentary traces Schumer's continuation of performances on tour during her pregnancy, eventually covering 42 cities and 60 shows en route to the planned taping of a special in Chicago.

The program traces that from the moment she posted her social-media announcement that she was "with child." However, "Expecting Amy" (directed and edited by Alexander Hammer, who worked with Beyoncé on Netflix's "Homecoming") also backs up to show events that set the stage for Schumer to become a mother, tracing earlier times in her relationship with Fischer, whom she married in February 2018.

Their wedding vows are shown in the series, and their pledge to stick by each other soon would face a big test from Schumer's pregnancy complications. She battled hyperemesis gravidarum, a side effect that Kate Middleton also experienced with all three of her pregnancies. It's marked by continual nausea and vomiting, dehydration and loss of weight, and Schumer noted in an Instagram post that she "felt sick mostly every day of my pregnancy."

Nevertheless, she also has said that she and Fischer were thinking about having a second child before the coronavirus pandemic hit. While they're waiting on that for the time being, "Expecting Amy" serves as a video diary of what already has made them Mom and Dad.

In Focus Deeper "Into the Dark" on Hulu

Movie: "The Current Occupant" (Hulu, July 17)

This installment of the "Into the Dark" series of original horror feature movies tells the story of a man with no memory in a mysterious psychiatric ward who comes to believe he is the president of the United States and the target of a diabolical political conspiracy. Julius Ramsay ("Midnighters") directs a cast headed by Barry Watson ("The Loudest Voice"), Sonita Henry ("Krypton"), Lilli Birdsell ("Doom Patrol") and Kate Cobb ("Scandal").

"Trolls World Tour"

This animated sequel made news when it kept its original release date during the coronavirus pandemic, but debuted on On Demand as well as in any theaters that still wanted (and were open) to book it ... and it fared quite well financially in its first wave of home viewing. Anna Kendrick and Justin Timberlake reprise their voice roles from the first "Trolls" as Queen Poppy and Branch, who fight a plot to quiet all other music in their kingdom by a "Rocker Troll" who wants her sound to be the only one. Kelly Clarkson, Rachel Bloom ("Crazy Ex-Girlfriend"), "Saturday Night Live's" Kenan Thompson, James Corden, Oscar winner Sam Rockwell and Ozzy Osbourne also are heard. DVD extras: two "making-of" documentaries; audio commentary by director Walt Dohrn, codirector David P. Smith and producer Gina Shay; "Trolls Dance Academy" and "Trolls World Tourist Map" features; "Dance Party Mode." >>> (PG: AS) (Also on Blu-ray, 4K Ultra HD and On Demand)

"Hope Gap"

Writer-director William stress and feelings of drama boasts an obviously fine acting duo in Annette Bening and Bill Nighy, playing a couple whose family reunion takes an even more emotional course than anticipated. The husband intends to end his 30-year marriage, of which he informs his son (Josh O'Connor) during a feelings of coastal at England, overall eff which, as releases, compacted pandemic pandemic

"Go Go Mania"

AS Adult situations

During the 1960s, movies showcasing some of the decade's most popular music acts were big draws produced relatively inexpensively. Having the artists pretty much just stand there and lip-sync to their hits, this is one such film – though it's particularly notable for the concert performances by The Beatles that open and close the picture. "Twist and Shout" and "She Loves You" are their selections, and in-between are appearances by such other "British Invasion" stars as The Animals ("House of the Rising Sun"), Peter and Gordon ("A World Without Love"), Herman's Hermits ("I'm Into Something Good"), The Honeycombs ("Have I the Right?") and Billy J. Kramer and the Dakotas ("Little Children"). The host is Jimmy Savile, at the time a popular television and radio presenter of such shows as "Top of the Pops" in England. >>> (Not rated) (Also on Blu-ray)

"Gordon Lightfoot: If You Could Read My Mind"

One of the most enduring of all modern singer-songwriters, Lightfoot has had quite a storied life, as conveyed through his own recollections in this documentary made for CBC Television in his native Canada. He remembers his early years touring as a teenage musical discovery and playing coffee houses, but he ultimately would render such hits as "Sundown," "Carefree Highway," "The Wreck of the Edmund Fitzgerald," "Rainy Day People" and (of

course) "If You Could Read My Mind" before packed arenas – with health challenges sometimes threatening to end his career prematurely. Friends, peers and admirers including Anne Murray, Alec Baldwin, Randy Bachman, Rush's Geddy Lee and Sarah McLachlan offer their perspectives on Lightfoot's personal and professional times.

"Love on Iceland"

>>> (Not rated: AS, P)

Now, see if you can guess which cable network this was made for: For a trek to Iceland, a woman regathers the friends she often traveled with during college, and her ex unexpectedly shows up. Yes, you probably guessed it ... it was done for Hallmark Channel, and it's actually quite charming, thanks largely to an engaging lead performance by Kaitlin Doubleday and expectedly lovely scenery. "Chicago Med" alum Colin Donnell plays the surprise attendee, and another co-star - Patti Murin - probably kept close watch on him during the romantic sequences, since in real life, she's his wife. >>> (Not rated: AS)

"Tooth Fairy: The Root of Evil"

Typically, a visit from the Tooth Fairy is quite welcome by the recipient, who cashes in (often literally) by leaving a certain something that came out of their mouth under the pillow ... but not so in this case, as the title of the horror tale probably suggests. A man (Jake Watkins) tries to get past his terrifying memories of an encounter he and his family had years ago

with a sinister incarnation of the Tooth Fairy – which frames him by targeting his friends at a reunion, extracting (take a wild guess here) the victims' teeth as an especially sinister calling card. Katie McKenna and AJ Blackwell also are featured. » (Not rated: AS, P, V)
